ACADEMIC PROJECTS

- ❖ **WanderLust**
  "Wanderlust" is an innovative full-stack project designed to revolutionize the rental housing market, offering users a seamless platform akin to Airbnb. With a user-friendly interface, WanderLust allows individuals to effortlessly create and upload listings for rental properties, empowering both hosts and renters alike. Leveraging cutting-edge technologies such as **MongoDB, Express.js**, and **Node.js**, WanderLust ensures a robust and scalable solution for managing property listings, user authentication, and seamless communication between hosts and renters. Whether it's a cozy apartment in the heart of the city or a serene countryside retreat, WanderLust caters to diverse rental needs, providing a hassle-free experience for users seeking temporary accommodations. Experience the future of rental housing with WanderLust – where every journey begins with a click.
